

Electrical Accessories

We are offering a range of electromagnetic accessories to complete our product range for various applications.

V300005

V300005 (IBS200A/12V)

Power relay used in the 12V IBS and DBi-IBS Dual Battery Systems to link the Main and Aux Battery. Best performance for any relay power switching applications.

System Voltage: 12V
 Continuous/Surge Load: 200/500A
 Coil Current: 0.6A
 Contacts: Silver Ag Sn O₂ Al
 Contact Life time: 100'000cycles 10sec on 10sec off
 Construction: Dual Bond
 Weight: 100grams
 Terminals: M6, Cu Zn

V300006

V300006 (IBS100A/24V)

Power relay used in the 24V IBS and DBi-IBS Dual Battery Systems to link the Main and Aux Battery. Best performance for any relay power switching applications.

System Voltage: 24V
 Continuous/Surge Load: 100/250A
 Coil Current: 0.20A
 Contacts: Silver Ag Sn O₂ Al
 Contact Life time: 100'000cycles 10sec on 10sec off
 Construction: Dual Bond
 Weight: 100grams
 Terminals: M6, Cu Zn

RS3/12V

RS3/12V

Plastic sealed Solenoid. Main power switch for electric recovery winch and any heavy loads. Copper contacts.

System Voltage: 12V
 Continuous/Surge Load: 100/750A
 Coil Current: 0.8A
 Weight: 400grams
 Terminals: "M8" (US bolts)

**CB1/50A
CB2/25A**

CB1 and CB2

Circuit Breaker. Auto resetting thermal fuse for easy installation. No fuses have to be replaced. Parallel installation for higher load current is possible.

System Voltage: 12V
 Trigger current CB1: 50A
 Trigger current CB2: 25A
 Weight: 20grams
 Terminals: "M5" (US bolts)

Distributor:
